➢ Projects

1. **AI-Powered Healthcare System** *(Updated Jan 2024)*
   Combined an AI-powered chatbot for healthcare diagnosis with a hospital management system to enhance patient care. Features include dietary advice, mental health recommendations, and patient monitoring for real-time health insights.

2. **Airline Management System with Dynamic Pricing** *(Updated Oct 2024)*
   Built an airline reservation system using AI-driven dynamic pricing, reducing ticket price errors and improving booking efficiency.

3. **Cake Selling Website for Friend's Bakery** *(Updated Nov 2024)*
   Created an e-commerce website to help a friend sell bakery products online, boosting sales and financial growth. Integrated features include product listing, secure payment options.

4. **AI-Powered Portfolio Website** *(Updated Dec 2024)*
   Developed a personal portfolio to showcase skills and projects, featuring a responsive design, interactive contact form, and project showcase section.
